New Abutilon, SOUVENIR DE BONN.

This is entirely different from anything we have had before in the way of variegated Abutilons. It is a strong, upright grower with large, bright green foliage, distinctly edged with a broad band of creamy-white and yellow. Flowers very large, on stems eight to nine inches in length. Color bright orange-red, very effective with its beautifully variegated foliage. It is one of the most distinct and showy ornamental foliage plants that has come to our notice in years, and when better known will be used in large quantities in connection with Palms, Dracenas, Rubbers, etc., for decoration purposes. Fine plants, 6 cents each; 50 cents per dozen; \$4 per hundred.

Abutilon, GOLDEN BELLS. (Golden Fleece.)

A bright, golden-yellow Abutilon, of strong, vigorous habit and very free flowering. There have been a number of yellow Abutilons introduced during the past few years, but they all lack richness of color; the variety now offered combines large size, fine form and depth of coloring, and will become the leading yellow variety. Price, 6c each; 50c per dozen; \$4 per hundred.

Agapanthus Umbellatus.

ANTHERICUM VITATUM—Folia Variegata.

A beautiful plant with recurved graceful foliage, which attains a growth of about three feet. The leaves are dark green, beautifully marked with broad stripes and bands of creamy-white color. Price, four inch pots, \$1 per dozen; two-and-a-half inch pots, 50 cents per dozen; \$3 per hundred.

ANTHERICUM PICTURATUM.

A beautiful plant with recurved foliage, which makes a handsome pot plant, and is also useful for vases. The leaves are dark green, beautifully marked with broad stripes and bands of a creamy-white color, bears large spikes of white flowers. Price, four inch pots, \$1.50 per dozen; two-and-a-half inch pots, 60 cents per dozen; \$5 per hundred.

AGERATUMS.

White Cap—New. It is, without doubt, the best white variety ever introduced.

Variegatum—Beautiful variegated leaves.

The ayflower—New. Dark blue; fine for carpet bedding. Price, 5 cents each; 40 cents per dozen; \$3 per hundred.

New Ageratum, Tapis Blue—This is the best blue Ageratum for bedding, etc., yet produced, being dwarf and compact in habit and extremely free flowering, superior to Cope's Pet. Raised by M. Bruant, Poitiers, France. Price, 5c each; 40c per dozen; \$3 per hundred.

Souvenir de Bonn.

Acalphyia Tricolor.

Acalphyia Tricolor.

A beautiful plant, with large and highly colored leaves. Bright red, with blotches of crimson-bronze. See illustration. Price, 5 cts. each; 50 cts. per dozen; \$4 per hundred.

Acalphyia Marginata.

Dark bronze, with rose margined foliage. This variety equals the showiest varieties of Coleus in effect, and has besides a decided advantage over any Coleus—namely to be hardier, and not liable to wilt in the hottest and dryest weather. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Rex Begonias.

A good assortment of mixed kinds. Price, 10 cents each; 60 cents per dozen; \$4 per hundred.

REX BEGONIAS—Set of twelve named kinds, \$1 per set.

Rex Begonia.

New Begonia, Paul Bruant.

A Begonia that grows in fine, bushy tree form, increasing in size and number of leaves very rapidly. On account of its free growth and easy culture, it is bound to become popular. It is of very heavy texture and a deep olive green. The bloom is borne in the greatest abundance on long, graceful stems, and is of two forms (as seen in Rubra), a part being very large and white, the petals quite transparent; continues in bloom from November to May, and is a handsome plant at any season of the year. Price, 10 cents each; \$1 per dozen; \$8 per hundred.

Manicata Aurea.

New Begonia, Manicata Aurea.

One of the most beautiful variegated plants within our knowledge. The plain green Begonia Manicata is a very beautiful variety, clean and glossy, bearing the veil of pink bloom above. But when we find Manicata beautifully blotched with cream color, often pure snow-white, deepening into canary, no other plant that we know carries such bold markings, nor in so pleasing combination of colors. Every one sees it admires it the most of any foliage plant we grow. The cut is a correct representation of the plant. Price, three-inch pots, 10 cents each; \$1 per dozen; \$8 per hundred.

Begonia, Metallica.

This elegant variety has very large glossy leaves shaded with green, crimson and olive, with a peculiar metallic lustre over all. Flowers large, dark-pink in color. The cut gives a good idea of its habit, but no engraving or description can portray its beautiful appearance. A beautiful house plant. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Begonia, Wettsteinii.

This fine Begonia is in the direct line of Rubra, so well and favorably known. The leaf is ornamental, being peculiarly indented, and a lovely shaded coloring, dark marbled green, shading lighter, with a line of scarlet at edge of leaf, the flower being similar to Rubra, but lighter in color. Price, 75 cents per dozen; \$5 per hundred.

Begonia, Semperflorens Gigantea Rosea.

A superb variety, strong, upright, grows large flowers of clear cardinal red, the bud only exceeded in beauty by the open flower, which is borne on a strong, thick stem. The leaves are smooth and glossy and attached closely to the main stem; both leaf and stem are quite upright, growing and forming a shrubby, round plant. Price, 75 cents per dozen; \$5 per hundred.

Begonia, President Carnot.

A remarkably strong growing variety, of stiff, upright habit, foliage large and somewhat in style of Begonia Rubra, but more than twice as large; upper side deep green, under side purplish-red, flowers beautiful coral-red, in large pendant panicles. Price, 10c each; 75c per dozen; \$5 per hundred.

Begonia, Vernon.

This excellent variety is of unusual merit as a bedding sort; foliage rich glossy-green often shaded deep bronze, changing to a beautiful clear rose in the fully open flower. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Begonia Metallica.

New Rex Begonia.

Countess Louise Erdody.

A strikingly peculiar variety of the Rex type, the leaves having a metallic lustre. Appears dark silver in the center, shading to coppery-rose toward the margin, yellowish green veins on both sides, the spiral twisting of the leaves giving it a very curious appearance. Price 10c each; \$1 per dozen.

Crimson-Leaved Begonia,

SANGUINEA.

A showy variety, with very large leaves the upper side of which is a rich olive, the under side crimson, and of a peculiar leather-like substance, dainty flowers, light rose to white. Price, 6c each; 50c per dozen; \$4 per hundred.

Begonia Sanguinea.

Begonia Louise Erdody.

FLOWERING BEGONIAS—Older Sorts.

Price, 6 cents each; 50 cents per dozen; \$4.00 per hundred.

Alba Perfecta Grandiflora—This variety closely resembles the well known Begonia Rubra in foliage and growth, with beautiful pure white blossoms.

McBethii—Foliage fern-like, panicles of pure white flowers produced in the greatest profusion.

Bertha de Chateauröcher—A flowering species, having flowers of a bright currant-red. Very free flowering Begonia.

Fuchsoides Coccinea—Elegant, free blooming variety. It resembles Hybrida Multiflora in growth; the flowers are bright scarlet.

Robusta—The flowers are borne in clusters, and with the coral-red buds form a most elegant and chaste appearance.

Sandersonii—(Coral Begonia.) The flowers are a scarlet shade of crimson, borne in profusion for months at a time, leaves slightly edged.

Hybrida Multiflora—Very free blooming with beautiful pink flowers.

Carrieri—Always producing a profusion of beautiful pure white bloom in clusters.

Marguerite—Leaves bronzy-green, somewhat resembling Metallica; large trusses of light rose colored flowers.

BEGONIA SPECULATA.

(See illustration.)

Quite a novelty in the Rex type; leaves are in the form of a grape leaf. Color is a bright green, with a back ground of chocolate; veins of a light pea-green, the whole leaf spotted with silver. In bloom it is magnificent, the panicles, composed of great numbers of individual pink blooms, are lifted high and spray-like quite clear of foliage. Price, 6c each; 50c per doz.; \$4 per 100.

Begonia Speculata.

Begonia, GLOIRE DE LUCERNE.

A beautiful variety that is evidently a cross between Sanguinea and Rubra, both of which it resembles in foliage, while the bloom is the most beautiful rosy-vermilion. The leaves are of most beautiful form, broad and deeply lobed, bronze-green above and purple below. The plant assumes a fine tree form with a little attention. Price, 10 cents each; 75 cents per dozen; \$5 per hundred.

Argentea Guttata.

New Begonia, ARGENTEA GUTTATA.

This variety is an introduction of M. Lemoine, and is a cross between Olbia and Alba Picta. This beautiful sort has the silvery blotches of Alba Picta and the grace and beauty of growth of Olbia. It has purple-bronze leaves, oblong in shape, with silver markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. Price, 6 cts. each; 50 cts. per dozen; \$4 per hundred.

Cissus Discolor.

CISSUS DISCOLOR.*Trailing Begonia.*

See cut. A climber with very beautiful foliage, deep velvety green, mottled with white on the upper surface; under side of a deep reddish purple. For trailing over the side of a window box, or grown on a trellis, as in illustration, it is one of the most odd and attractive plants. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

CEREUS GRANDIFLORA.*The Night-Blooming Cereus.*

The most beautiful flower in the world. Its flowers are very large, of a pure satiny-white, with outside petals faintly tinged with reddish-brown. It is also deliciously fragrant. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

CLERODENDRON BALFOURI.

Beautiful climber with large clusters of white and scarlet flowers. If planted out in the open ground and kept cut back it makes a fine bedding plant; flowers profusely in the early Fall. Price, 50 cents per dozen; \$4 per hundred.

Calla Richardia Maculata.

TRI-COLOR CUPHEA—Cuphea Llavæ.

The flowers are tubular in shape, one and one-half inches long, and have two bright scarlet wings at the end of each flower. The tip of each flower is bright purple; the stems are pure white. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

CORONILLA GLAUCA.

There are very few really good yellow blooming plants that will answer either for Summer or Winter blooming. This is one of the best, bearing yellow pea-shaped flowers, which are very fragrant. Price, 6 cents each; 50 cents per dozen.

ERYTHRINA CRISTA-CALLA.

A magnificent plant, producing its scarlet and crimson pea-shaped flowers on spikes eighteen inches long. Planted in May, they will flower profusely through the Summer; they may be taken up in the Fall and kept in perfect preservation during the Winter in a dry cellar, the roots covered with half dry earth. Price, 50 cents per dozen; \$4 per hundred.

Asparagus Plumosis Nanus.

ASPARAGUS PLUMOSUS NANUS.

One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality when cut is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. See illustration. Price, 10 cents each; \$1 per dozen.

AMARYLLIS FORMOSISSIMA—Jacobean Lily.

This grand bulb will flower either Winter or Summer. Keep dry during Summer for Winter blooming, and reverse the order for Summer bedding. The flowers are of the darkest scarlet, very rich and pure, and produced freely. Splendid for pot culture, and can be grown in water like Hyacinths; flowers in Summer if kept dry during Winter. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Hardy Pink, HER MAJESTY.

FLORISTS' PINKS.

These are dwarfier than the Carnation flowers; perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy. Price field clumps, \$1 per dozen.

E. G. Hill—Immense bloom of brightest golden yellow; full and very double; lower petals sometimes deeply shaded bright carmine.

Gloriosum—Light lemon color, with immense flowers, having narrow petals gracefully curved and twisted; quite early and one of the best.

Golden Wedding—This is undoubtedly the grandest golden-yellow variety ever introduced. It is remarkably vigorous grower and has such strength of stem that it carries its great globular flowers erect, giving it a bold majestic appearance.

Ivory—Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

Mrs. Perrin—Mrs. Perrin is the nearest approach to the true pink so long desired. It has slender, stiff stems; a short neck; ornamental foliage. The flower is of globular form, incurved, full, and with a finish as soft as satin. Color rose-pink within, glistening pink without. Recognized wherever shown as the ideal variety in this color.

Mme. F. Bergmann—The finest of all the early whites; very large and full, and of the purest white, with creamy center; a strong, sturdy habit; fine foliage. The most popular white variety with florists for early forcing.

Mrs. Jerome Jones—It is almost of globular form, of the finest silky finish, and destined to become a popular sort for cutting. The outer petals are a delicate lavender, forming a decided band of color, the inner petals are clear lemon.

Pink Ivory (Miss Dalskov)—An immense incurved variety. Clear bright pink, fine rounded form of great depth, with deep strong foliage. The grandest of the extra early clear pink varieties.

The Queen—A grand double white of fine form and great substance, very rounded in form, incurving and full. Attracted a great deal of attention at Madison Square, where it was awarded first premium for best white.

Vivian Morel—A mammoth variety, with long, loosely arranged petals of a most beautiful shade of pink; a strong sturdy grower, with deep green foliage; contour very distinct from any other in common.

Niveus—A good snow-white variety. Center irregularly incurving, with outer petals reflexing nearly to the stem. Constitution robust, foliage large and abundant, while the keeping qualities of the flowers are unsurpassed.

Major Bonafon—Soft, clear, incurving yellow, full in the center and deep. In perfect form and finish, like Ivory at its best. Habit dwarf; keeping qualities excellent. Foliage well up to the flower, stem stiff; an ideal variety.

Mrs. Perrin.

Joseph H. White—A very large white variety, with upright petals, forming a nicely rounded flower of great substance. Strong grower with stiff stems.

L. Canning—A most exquisite white, absolutely pure. The flower is quite regular in form, very large and flat, the length of petals graduating to the center. A little larger than Puritan, to which it is a grand successor. Reminds one of a large satin rosette.

The "Louis Bohmer" has the same wonderful hair-like growth or excrescence that appeared for the first time in the white variety, "Mrs. Alphens Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals.

Lillian B. Bird—This beautiful and unique variety is of an exquisite shrimp pink in color, producing flowers which often measure ten inches in diameter; large tubular petals of perfect form when fully open, being an immense half globe.

Marion Henderson—We cut the first flowers on October 10th,—days before any other large yellow was ready, and had perfect flowers to cut a month later. The texture of the flower is such that we have never seen it in the least affected by damp, although other varieties along side of it were badly affected.

Mrs. J. G. Whilldin—A handsome yellow variety of light tint, fine, large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties. Whole large greenhouses are devoted to this variety in the East for cut flower purposes.

Miss Gladys Spaulding—One of the best whites extant; a grand spherical Chinese; an improvement on Mrs. R. Craig, both in size and texture of petals. An exceedingly well-built flower, a charming variety with perfect habit and unusually stiff stem.

THE BEST

New Single Geraniums

AT PRICES QUOTED.

The Wonder—This new Geranium is, without doubt, the finest that has been offered. It came from France in a lot of fine sorts, and is supposed to be a sport from the scarlet Geranium. Athlete. It being so intense in color, such a wonderful bloomer and strong grower that it was kept separate and styled "The Wonder," from the fact that every one who saw it pronounced it wonderful. The artist has copied exactly in size an ordinary truss. The flowers are the most intense, dazzling scarlet, and are borne in trusses of enormous size, measuring from eighteen to twenty inches in circumference, with single florets measuring seven inches in circumference. The foliage is fine and rich in color, and in strong contrast to the brilliant scarlet flowers. As a pot plant or a bedding Geranium it has no equal. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Mrs. E. G. Hill—There never has been a salmon-colored Geranium to equal this, although it was introduced some four years ago, and it is rarely offered in wholesale lists, because it is picked up by the market growers. We have a nice lot growing, and think we will be able to meet the demand. For those unacquainted with the variety we would say it is a most distinct and pleasing shade of salmon, with light shading at the center. Trusses are large and composed of an immense number of florets. The finest salmon-flowered Geranium to date. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Madonna—A magnificent bedding variety; trusses are of extraordinary size, of almost pansy form; the color is a soft light pink, a beautiful and distinct shade. This variety has been universally admired by all who have seen it in flower. A variety that will probably never be equaled. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Mrs. J. M. Gaar—Absolutely perfect as a bedding variety; never burns; is of dwarf, compact habit, and in freedom of bloom is superior to all whites, and equal to the best scarlet bedders. It is away ahead of all others, and fills a long-felt want in a white bedder. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Blanche Moulas—The color is a very light salmon, edged about the petals with pure white. This is the finest of the lighter Bruants, and a great improvement on any other of this shade. Price, 6 cents each; 50 cents per doz.; \$4 per 100.

Jeanne de Arc—Of the Souv. de Mirande type; very free flowering, even more so than Mirande. Color very distinct and attractive, being a bright orange-red, the two upper petals blotched and feathered pure white to more than half their length. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Aurora Boreale—Extra large flowers of most beautiful orange-scarlet; fine for massing and one of the showiest and finest of the whole Bruant race, and makes a fine addition to any collection. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

M. Alfred Mame—Each floret is $2\frac{1}{2} \times 2$ inches, forming a wonderful flower of soft scarlet, petals shading to salmon in center, which is deeply veined crimson. As a market plant it outsells any other kind. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Granville—A new English variety that doubtless would supersede such varieties as Master Christine, Queen Olga, Mrs. Lindsay, etc. The flower is larger than any single pink variety heretofore known, of the same delightful shade as Master Christine, the flower well above the foliage on strong stems; fine, light green foliage, good, strong habit; makes an elegant pot variety and surpasses all pink varieties as a bedder. Price, 6 cents each; 50 cents per doz.; \$4 per hundred.

Double Geranium, J. J. Harrison.

THE NEWER DOUBLE GERANIUMS

AT PRICES QUOTED.

J. J. Harrison—Of all the new Geraniums introduced the last five years, this is the Premier variety. The enormous truss, the size and beauty of the individual flower, its glowing color, the sturdy habit and magnificent growth, make it rank first of all in bedding Geraniums. Mr. Bruant, the grower, has given us a great many good varieties, and this variety far excels them all. Its brilliant scarlet flowers make it a noticeable feature in any collection. Price, 6 cents each; 60 cents per dozen; \$4 per hundred.

Colossus—Floret quite circular, semi-double; two-and-a-half inches in diameter; truss also fine. The color is very beautiful, a rich shade of rosy-crimson; very free in bloom. One of the very largest and finest among the double reds. Price, 6 cents each; 60 cents per dozen; \$4 per hundred.

Alphonse Ricard—A strong grower, dwarf and branching and producing flowers in great masses. Both floret and truss are of enormous size, single or slightly doubled, and color a brilliant shade of orange-red. M. Bruant recommends this in the highest terms as a bedder. Price, 6 cents each; 60 cents per dozen; \$4 per hundred.

Bed of Gold—Those who have tried such Geraniums as Gilded Gold, Progressive and Golden Dawn, will find this variety is far in advance of all other existing kinds of orange-scarlet. It is of a rich golden-orange shade, its large trusses opening freely, the habit being as free and robust as that of any other variety. Price, 5 cents each; 50 cents per dozen; \$3 per hundred.

Beaute Poitevine—Very large, semi-double flowers, borne on immense trusses. Free bloomer, either as a pot plant or as a bedder. It has no equal of the color, which is a brilliant salmon, very clear at the borders. This might well have been called "Salmon Bruant," as it is identical in every way but color. Price, 6 cents each; 60 cents per dozen; \$4 per hundred.

BRUANT.

The giant among Geraniums. We consider this the bedding Geranium of all varieties. The plant redounds in vigor, foliage, and all the qualities that go to make the perfect bedder that it is. Fine also in pots. It is of the semi-double type (the most striking of all), only the double form takes place near the base of the petals, allowing them free development, and at the same time showing the semi-double type. Price, 5 cents each; 50 cents per dozen; \$3 per hundred.

CALIFORNIA.

Golden-orange shade, of the most brilliant hue. The flowers are of the largest size, most perfectly shaped, in large trusses, opening freely at all seasons. The habit and growth is as free and robust as in any other variety. Price, 6 cents each; 60 cents per dozen; \$4 per hundred.

EMILE DE GIRARDIN.

No one who has not seen this lovely pink Geranium as it is grown in the beds and borders of the Northern parks can imagine the beauty that lies in a flower of that color. Of a deep, soft rose, rather than pink, but fresh and bright; the flowers are perfect in form and borne well and clear above the foliage. It stands the sun perfectly, and is, in our opinion, the finest double variety of any color of massing, when a delicate and artistic effect is desired. Price, 5 cents each; 50 cents per dozen; \$4 per hundred.

FIRE BRAND.

Color a dazzling flame-scarlet, fine, prominent truss, flowers large and of great substance; an excellent bedder and pot plant. For planting in masses we have seen none to equal it. Another thing in its favor, it takes fewer plants from its sturdy branching habit to give effect. Price, 5 cents each; 50 cents per dozen; \$3 per hundred.

PINK BEAUTY.

Is remarkable for its stout, robust growth, and for its immense trusses of bloom. The foliage is very large and of light green color, with a band of dark green encircling each leaf. The flowers are borne on bold trusses of enormous size, almost spherical, and as many as sixty florets have been counted on single truss. The color is the richest deep pink, shading near the base of the plant to light pink, the base of the upper petals creamy-white. Price, 5 cents each; 50 cents per dozen; \$3 per hundred.

A Fine, New, Apricot-Tinted Geranium,

M. LOCKRAY.

This new variety has wonderfully large flowers of the semi-double type that is so effective. The color is a peculiar apricot-salmon in center, diverging to a lighter hue, sometimes almost white on the edge. LOTUS PELYORENSIS.

(Coral Gem.)

This charming plant is so well thought of abroad that a prominent horticultural journal color-plated it. The Garden says of it: "Its cylinder branching habit is most striking, and the silvery foliage even more so. Without its flowers it might almost be described as a 'Silvery Asparagus.'" But the bright coral-red flowers, measuring two inches in length, are really beautiful, greatly reminding one of a rare and beautiful *Clianthus*, so difficult to grow, while this gem is of the easiest possible management. Its drooping habit also makes it useful for hanging baskets. It is nearly hardy. Price, 60 cents per dozen: \$4 per hundred.

Solanum Jasminoides Grandiflorum.

This beautiful plant is of a trailing or climbing habit, but seldom attains a greater height than three or four feet, and if desired can then be cut back to a bush form. A Page of the Latest Novelties in Roses.

THE YELLOW RAMBLER. (Aglaia.)

The advent of the Yellow Rambler marks a very important epoch in the Rose world. It was originated by the prominent rose grower, Mr. Peter Lambert, who has carefully tested it for some eight years, and first offered it to the public only this last season. Its production is a great triumph in the art of hybridizing. The Yellow Rambler has been found to successfully withstand, without protection, a continued temperature of from zero to two degrees below, which proves it to be far harder than any other yellow climbing Rose yet introduced, and we believe that by laying the plants down in the Winter it can be successfully grown in nearly all the northern parts of the United States; in fact, anywhere that other Roses succeed at all well. The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established, they more than make up for this by the magnificence of the flowers they produce. Price, 75 cents per doz.; \$6 per hundred.

PINK RAMBLER, Euphrosyne.

Originated by the same gentleman who produced White Rambler, Mr. Peter Lambert, and is of the same blood. What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. "The numerous yellow stamens lend an additional charm to the flower. In hardiness, freedom of bloom, form and color of flowers and vigorous climbing habit, this variety is fully the equal of Crimson Rambler." Price, 75 cents per dozen; \$6 per hundred.

WHITE RAMBLER. (Thalia.)

Of German origin and in habit of growth, foliage, manner of blooming, form of flowers and hardiness it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented—which the flowers of Crimson Rambler are not. The flowers "remain on the bush from three to five weeks; beautiful to behold." Price, 75 cents per doz.; \$6 per hundred.

Grand New Velvety-Red Rose, CLIMBING METEOR.

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows where its great beauty will show up to good advantage. Price, 75 cents per doz.; \$5 per hundred.

MANDA'S WICHURIANA HYBRIDS.

The habit of these new Roses is the same as the Rose Wichuriana, or Memorial Rose. The growth is creeping, and, therefore, can be used to cover ground, stems of trees, pillars, posts, trellises, or any other purpose desired, including pot culture. They are the hardiest Rose we know of, and will stand any climate or exposure, and will thrive in the poorest soil or a gravel bank. The foliage is finely cut, thick, of a leathery substance, bright green, shining as if varnished, not subject to mildew or any insect, but keeps its full beauty until almost Christmas. The flowers are produced in the greatest profusion, so that a two or three year old plant will produce several thousand most exquisite flowers, which are deliciously fragrant and last a long time in perfection.

Manda's Triumph—(Manda.)

This grand Rose is of free growth, luxuriant foliage, and produces large clusters of double, pure white flowers, beautifully imbricated and well formed, two inches in diameter and sweetly scented. Price, \$1.50 per dozen; \$12 per hundred.

Universal Favorite—(Manda.)

This is the most vigorous plant of the set. The long branching shoots are covered with dense, bright green foliage. The double flowers are over two inches in diameter, and of a beautiful rose color, similar to the Bridesmaid, and deliciously fragrant. A grand variety for any purpose. Price, \$1.25 per doz.; \$10 per hundred.

South Orange Perfection—

(Manda.) This is a gem, growing freely close to the ground and having multitudes of the most perfectly formed, double flowers, about one and a half inches in diameter, soft blush pink at the tips, changing to white. It lasts a long time in

perfection. Price, \$1.25 per dozen; \$10 per hundred.

Pink Roamer—(Manda.) This is without question a Hybrid between the Sweetbrier, and carries these characteristics in bloom, while the growth, which is very rampant, and the luxurious foliage partake more of the Wichuriana. The single flowers, which are produced in close heads, are nearly two inches in diameter, bright rich pink, with almost a white center, which lighten up the orange-red stamens, producing an effect which, combined with fragrance, makes it one of the most valuable roses in cultivation. Price, \$1.25 per dozen; \$10 per hundred.

LEONIE OSTERRIETH, or White Soupert.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant. Pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthas. Price, 75 cents per dozen; \$5 per hundred.

MOSELLA, or Yellow Clothilde Soupert.

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy-white on the edges of the petals; it will make a great bedder and perfectly hardy. Price, 75 cents per dozen; \$5 per hundred.

Yellow Rambler.

Pink Rambler.

New Rose,
CRIMSON RAMBLER.

This superb novelty is of the Polyantha class and was originally received from Japan. The flowers are produced in great pyramidal panicles or trusses, each carrying from thirty to forty blooms, the individual flower measuring about one to one-and-a-half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is said to be exceedingly hardy, having successfully withstood the test in exposed situations of two very severe Winters in England. We can recommend this variety in the strongest manner as being a new Rose of great importance and value. Price, 50 cents per dozen; \$3 per hundred; two-year-old plants, \$6 per hundred.

New Forcing Rose,
BRIDESMAID.

A new Rose. A sport from that old standard, Catherine Mermet. This variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Catherine. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur and more cut blooms are sold by the flower dealer of it than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so solid and stiff that no other Rose will compare with it in keeping qualities after being cut. It has, though, with all these good qualities, a serious defect; namely, "off color." This is more noticeable in dark, cloudy weather, but it is true of the Rose at all times. Now, this is why the Bridesmaid will supersede the Mermet. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, strong two-and-a-half inch pots, 6 cents each; 50 cents per dozen; \$3 per hundred.

New Rose,
HENRY M. STANLEY.

This grand, new, ever-blooming Rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer, and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff-rose. The flowers are of good substance, extra large, finely formed, and very full and fragrant. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

The Beautiful Memorial Rose,
ROSA WICHURIANA.

This hardy and lasting Rose creeps over the ground like Ivy. The leaves are glossy, dark green and handsomely notched. The flowers, which are borne very profusely during July, are large, pure white, single, with yellow center, and have a strong, wild rose fragrance. It is one of the very best plants for rock work, embankments, slopes, cemeteries, as well as for garden cultivation. Its wonderfully free, rampant habit frequently shows growth of ten to twelve feet in a season, spreading as it goes. Price, 50 cents per dozen; \$4 per hundred.

New Ever-Blooming Tea Rose,
MRS. D'GRAW.

Everybody wants a hardy, ever-blooming Rose, and we now offer the grandest of this class. From early Summer until frost it can be depended upon to produce flowers of large size and exquisite fragrance in lavish abundance. In color it is a rich, glossy pink. It is such a strong grower that it is always impregnable against attacks of insects. For garden or cemetery it has no equal. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

ETOILE DE LYON.

This is considered one of the finest yellow bedding Roses for outside planting; it is, moreover, one of the hardiest of the Tea section. It blooms freely and every flower is a gem. It equals Marechal Niel in size, on strong bushes. A deep chrome-yellow. A remarkable Rose, deserving extensive culture. Price, 50 cents per dozen; \$4 per hundred.

New Forcing Rose,
KAISERIN AUGUSTA VICTORIA.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open. Color a pure snowy-white. Price, 8 cents each; 75 cents per dozen; \$5 per hundred.

Tea Rose, PERLE DES JARDINS.

Without doubt the finest Rose in cultivation. Canary or golden-yellow flowers and beautifully formed. Handsome in every stage of development, from the smallest bud to the open flower. Price, 6 cts. each; 60 cts. per doz.; \$4 per hundred.

GUSTAVE NADAUD.

(Supert & Notting.) A free branching grower, with large, double flowers. The outside petals are large and rounded, giving it an exquisite cup-shape. Color, vermillion, with clear touches of carmine lake, and soft pink center. Price, 6 cents each; 50 cents per doz.; \$4 per hundred.

COUNTESS ANNA THUN.

Flowers freely produced on short, stiff stems, showing the characteristics of a good bedder. It is of immense size, and of the most perfect form imaginable. Color a beautiful citron-yellow, with coppery and peach center, shading to a salmon and silvery-pink, the color blending nicely. Price, 6 cents each; 50 cents per doz.; \$4 per 100.

New Tea Rose, MISS WENN.

This charming variety is noticed at once for its exquisite color, which seems entirely distinct from almost all other Roses of our acquaintance. We can call it a clear coral-pink, a most novel and distinct shade of color very difficult to describe. The French call it China pink. It is certainly a very beautiful color, and full and exquisitely Tea scented. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Tea Rose, CAPTAIN LEFORT.

Color of flower rosy-purple, reverse of petals China rose. This variety is a cross between Socrates and Catherine Mermet. Long buds on stiff stems. A variety of great merit. 6 cents each; 50 cents per doz.; \$4 per 100.

[S]The[New]Crimson Forcing[Rose],[METEOR.]

A velvety-red ever-bloomer, of the deepest glowing crimson. As fine as a Hybrid; flower of medium size, very double, and petals slightly recurving. A beautiful open Rose, a free-bloomer and promising well as a pot Rose. It has no tinge of violet or purple to mar its beauty. It promises to be a reliable ever-bloomer, free from bad qualities. The best rich red Rose that was ever introduced for florists' use. The usual demand for this forcing Rose has caused us to grow them in large quantity, and we offer them in two sizes. Nice, strong two-and-a-half inch pots, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Tea Rose, MAMAN COCHET.

One of the best new Roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half-expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose-pink. 6 cents each; 50 cents per doz.; \$4 per hundred.

New Tea Rose, J. B. VARRONE.

A fine grower, flowers very large and double, with high center, opening from long buds. Color a soft China rose, changing to bright, deep carmine of even shading. An extra good Rose and very sweet. Much superior to Luciole, which it greatly favors, but of a very better growth and much freer in blooming qualities. A grand new Rose. 6 cents each; 50 cents per doz.; \$4 per hundred.

Forcing Rose, THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. 6 cents each; 50 cents per doz.; \$3 per 100.

New Tea Rose, GEN. ROBERT E. LEE.

(Introducer's description.) This is the first Rose we have introduced, and we are sure it will please all who try it. It is in color an orange yellow, after the color of Ma Capucine, only richer and better. It is a good grower, has elegant, long buds, borne on long stems, and will produce more buds than any other Rose we know of. It forces easily, being at its best in mid-winter. There is no variety that will compare with it in all the qualities that go to make up the ideal Rose. The color is so peculiar and rich that it attracts attention wherever seen. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

The Great Forcing Rose. CATHARINE MERMET.

A Beautiful, clear, rich color, with the same silvery lustre seen in La France. Large, well formed. Very beautiful in bud. One of the most popular Roses for cut flowers. 6 cents each; 50 cents per doz.; \$3 per hundred.

The Meteor.

MARIE LAMBERT.

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Tea Rose, SUNSET.

It is a "sport" from that grand variety, Perle des Jardins, which it strongly resembles; perfumed. The color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, ruddy copper, intensely beautiful and resembling in color a splendid "after-glow." Price, 8 cents each; 60 cents per dozen; \$5 per hundred.

The Queen.

New Tea Rose, THE QUEEN.

A most charming Tea Rose. The offspring of that fine old Rose, Souvenir d'un Amie, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely formed buds; is quite full, showing the center but slightly. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Tea Rose, VISCOMTESSE DE WAUTIER.

Rosy-yellow upon the exterior of the petals, rosy-white in interior. The center is a dark rose, and this color is often lined into the lighter shades above, producing a charming effect. A grand Rose. Price, 6 cents each; 60 cents per dozen; \$3 per hundred.

Tea Rose, MADAME ELI LAMBERT.

A beautiful new Tea Rose. The colors are not particularly remarkable—scarcely unusual—and yet we have no hesitancy in recommending it as one of the most beautiful and valuable Roses of which we have any knowledge. The flowers are extra large, fine, globular form, very full and well built up. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Tea Rose, PROF. CANIVIAT.

Vigorous in growth and free in bloom. Flower double and of good form, of the color of Souvenir Therese Levet. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Md. de Watteville.

Tea Rose, MD. DE WATTEVILLE.

This grand ever blooming Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy yellow, richly colored with rosy-blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Tea Rose, SNOWFLAKE.

It is a lovely new white Tea; the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., of Washington, D. C., and by them grown in large quantities for cut flowers; they claim it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Tea Rose, COUNTESS EVA STARHEMBURG.

This bud is long in form, opening into a fine double flower of great beauty and heavy texture; color a creamy-white, shading to ochre at center; borders of the petals touched with rose. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

Countess Eva Starhemburg.

**The Superb
Blooming Rose,
CLOTHILDE SOUPERT.**

(The best market pot Rose.) This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong vigorous grower. The flowers are large, double, beautiful in form, with the style of the beautiful Rose, "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell pink to a pure satiny white. Roses with both of these colors are produced on the same plant at the same time. This Rose is destined to take high rank as a pot Rose, for bedding purposes, and with the increased taste for Roses in clustered sprays, will be profitable as a cut flower. No other Rose approaches it in flowering qualities, not even the grand old Hermosa. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Clothilde Soupert.

MARIE VAN HOUTTE.

Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms profusely, and is most deliciously scented; in cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

**Tea Rose,
LETTIE COLES.**

One of the loveliest Roses grown, without exception. It is very double and cupped, forming a magnificent, full open Rose of soft, creamy-white, with a very bright, rosy-carmine center. A splendid grower and universal favorite. Price, 50 cents per dozen; \$4 per hundred.

SOUV. DE LA MALMAISON.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Crimson Tea Rose,**CHRISTINE DE NOUE.**

This beautiful new red Tea is a very charming Rose, and promises to be one of the best of recent introduction. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright deep green foliage; a constant and very free bloomer; the flowers are well-borne upon strong stems, and are unusually strong and handsome; the buds are long and finely pointed, and the color a clear, rich maroon, or deep purplish-red, passing to lake, center sometimes streaked with silvery-white. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

The color is a bright, rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. Price, 6 cents each; 50 cents per dozen; \$3 per hundred.

Beautiful New Rose, INCONSTANT BEAUTY.

The Rose of many colors—from yellow to crimson. This new ever-blooming Rose from France is very remarkable in many respects, but the most notable is its ability to change its color. This Rose is almost identical with "Child's Jewel," but we believe a much better Rose. We have seen bushes of this wonderful variety bearing at the same time coppery-yellow, deep rose, bluish pink, mottled yellow and apricot, light and dark crimson Roses. These beautiful colors will sometimes be mottled in a single flower. A plant of this beautiful Rose, when in full bloom, presents a sight that is at once novel and pleasing. The buds and flowers are large, delightfully fragrant, and, as may be imagined, are exquisitely beautiful. It is a Tea Rose, and is, therefore, a constant bloomer. Its fragrance is delicious, and it being a vigorous grower makes it valuable for garden culture. Price, 50 cents per doz.: \$4 per hundred.

WHITE LA FRANCE—Augustine Guinnoiseau.

Here we have a beauty indeed, one we can recommend to all, whether for out-door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 6 cents each; 50 cents per dozen; \$4 per hundred.

New Rose, THE RAINBOW.

This new Rose from California, which, no doubt, will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral-pink, striped and mottled in the most unique manner with intense crimson, and elegantly colored with rich, golden amber at center of base of petals. The New Hardy Perpetual Blooming Climbing Rose,

Empress of China.

This remarkable new variety from China has been thoroughly tested, and its great excellence is guaranteed. Its valuable feature, apart from its entire hardiness, is its perpetual blooming. It commences to flower early in Summer and from that time until late in the Fall it blooms continuously. It is entirely hardy, having withstood a temperature of sixteen degrees below zero, unprotected and without injury. In habit of growth it is vigorous, and in this respect unsurpassed; small pot plants will make a growth of 6 to 8 feet in a single season. The foliage and habit is not unlike Marechal Niel. The flowers are of medium size, very graceful in form, and highly fragrant. The bud is pointed and very shapely, and is borne on long, stiff stems. The color of the bud is a soft dark red and as the flower expands changes to an apple blossom pink. Price, 50 cents per dozen; \$4 per 100.
